STRATA COFFEE TABLE
DIGITAL CATALOGUE

Tra scultura e tavolino, la collezione Strata di Emmanuel Gallina si ispira alle stratificazioni minerarie. Con diverse dimensioni e altezze, piani rotondi o di forme organiche, ogni pezzo esprime una sua peculiare unicità e allo stesso tempo si abbina perfettamente agli altri, come le pietre tra loro in natura. I tavolini Strata sono realizzati per colatura a stampo in Cementoskin®, un materiale evoluto ad altissima resistenza.

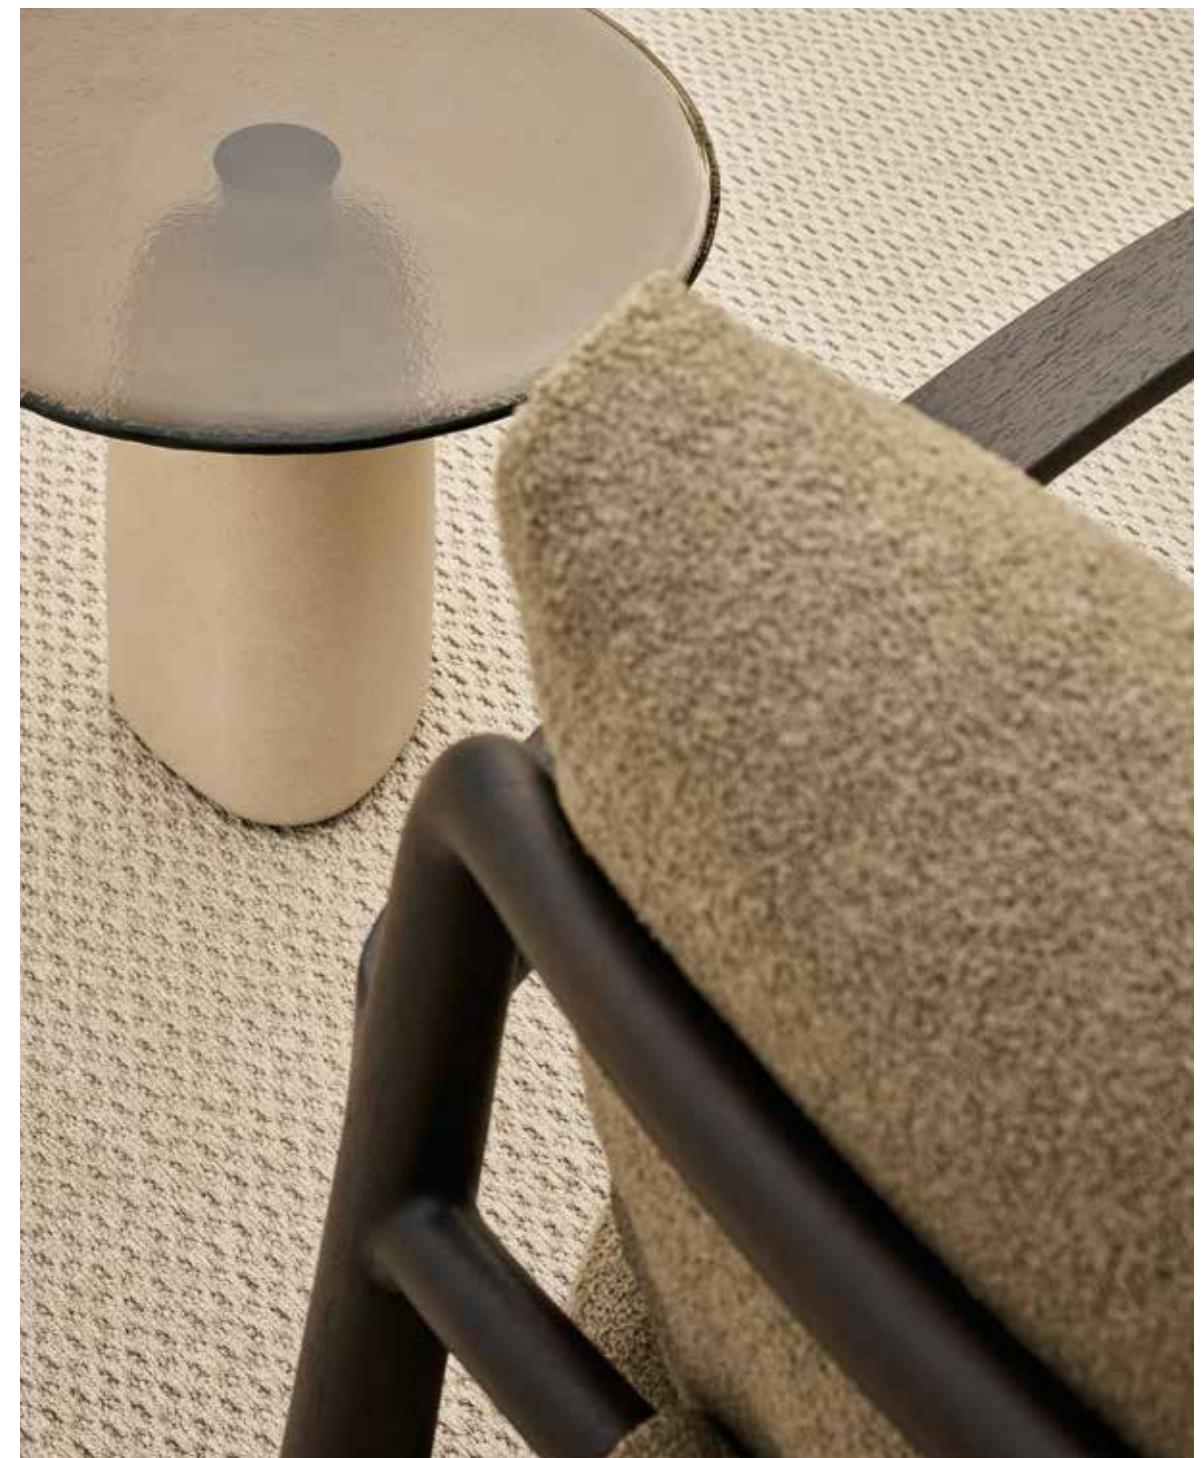

A cross between a sculpture and a coffee table, the Strata collection by Emmanuel Gallina is inspired by mineral stratifications. With different sizes and heights, round planes or organic shapes, each piece expresses its own particular uniqueness and at the same time perfectly matches the others, like stones in nature. Strata coffee tables are made for mould casting in Cementoskin®, an advanced material with very high resistance.
