MILANO 2024

Da sempre Poliform esprime una visione evoluta dell'interior design, ispirata all'architettura contemporanea e alla ricerca sui nuovi modi dell'abitare. Al Salone del Mobile.Milano 2024, cui è dedicato questo volume, Poliform ha presentato le novità di prodotto firmate dai designer Jean-Marie Massaud, Emmanuel Gallina e Stefano Belingardi Clusoni, accanto ai best seller e a numerosi ampliamenti di gamma. In dialogo tra loro e con l'architettura dello stand, i prodotti raccontano il progetto di stile Poliform con un'estetica coerente e riconoscibile, declinata in chiave lifestyle.

Since its inception, Poliform has had a forward-looking take on interior design, getting inspired by contemporary architecture and always keeping up to date on new ways of living. At Salone del Mobile.Milano 2024, to which this catalogue is dedicated, Poliform presented new products by designers Jean-Marie Massaud, Emmanuel Gallina and Stefano Belingardi Clusoni, together with their best sellers and new additions to their ranges. These products are in dialogue with one another and with the architectural set-up of the stand, and illustrate the Poliform-style project through coherent and recognizable aesthetics, from a lifestyle perspective.

Poliform presenta in anteprima le novità 2024. Con il divano Ernest, Jean-Marie Massaud interpreta il tema del comfort in modo radicale, con volumi morbidi e destrutturati. Un'estetica forte e d'impatto, ma sempre elegante, che si riconosce anche nei tavolini Ernest, nel tavolo Adrien, nella poltrona Kaori Lounge, nelle madie Duke e nella collezione notte Brera, mentre la sedia Ipanema, la poltroncina Leopold e la madia Aiko si rifanno a linee più essenziali. Forme organiche e curve delicate si confermano la cifra stilistica di Emmanuel Gallina, che con i divani Orbis e i tavolini Strata disegna un living più intimo, quasi uno spazio nello spazio. Stefano Belingardi Clusoni progetta una poltroncina per il low dining che unisce solidità e morbidezza. A completare la proposta è l'R&D Poliform, che firma le più recenti evoluzioni dei sistemi giorno.

Poliform presents a preview of what's new in 2024. With the Ernest sofa, Jean-Marie Massaud approaches the theme of comfort in a radical way, with soft, unstructured volumes. A strong and impactful, yet still elegant aesthetic is also on display in the Ernest side tables, the Adrien table, the Kaori Lounge armchair, the Duke sideboards and the Brera night collection, while the Ipanema chair, the Leopold small armchair and the Aiko sideboard feature more essential lines. Organic shapes and delicate curves are the stylistic signature of Emmanuel Gallina, who designed a more intimate living room, with the Orbis sofas and Strata coffee tables. You could say, a space within a space. Stefano Belingardi Clusoni designed a low dining armchair that combines solidity and softness. Poliform R&D completes the offer, designing the latest living room systems evolutions.

ERNEST SOFA

Con Ernest, Jean-Marie Massaud interpreta il tema del comfort in modo radicale. Il risultato di questo approccio, che fa della modularità un punto di forza, è un divano dai volumi morbidi e destrutturati ispirati a un cuscino in piuma, per un comfort naturale. Accostando i diversi elementi si creano divani piccoli o grandi, lineari o a L, senza mai perdere la forza espressiva del progetto.

With Ernest, Jean-Marie Massaud tackles the theme of comfort in a radical way. The result of this approach, which makes modularity its strong point, is a sofa with soft, deconstructed volumes inspired by a down cushion for natural comfort. The juxtaposition of the different elements results in small or large, linear or L-shaped sofas, without ever losing the expressive power of the design.

ERNEST COFFEE TABLE

Dell'omonima collezione di divani, i tavolini Ernest riprendono ed espandono il tema della modularità. Come un puzzle, i tavolini possono essere combinati tra loro a centro stanza per creare figure che rendono dinamica la zona living, oppure usati singolarmente accanto al divano Ernest.

Starting from the sofas, the Ernest side tables return to and expand on the theme of modularity. Just like a puzzle, the coffee tables can be combined in the middle of the room to make the living area more dynamic, or used individually next to the Ernest sofa.

Loai è una poltrona nata dal dialogo tra mondo del progetto e mondo del design. La struttura a vista riprende la classica forma a compasso, mentre lo schienale è avvolgente. Primo prodotto dell'architetto Stefano Belingardi Clusoni per Poliform, Loai è una poltrona per il low dining, basata sul contrasto fra dimensioni compatte e seduta extra large, solidità della struttura e morbidezza della cuscineria, modernismo e contemporaneità.

Loai is the first product by architect Stefano Belingardi Clusoni for Poliform, an armchair born from the dialogue between architecture and design. The exposed frame echoes the classic compass shape, while the backrest is enveloping. An armchair made for low dining, Loai highlights the contrast between its compact size and extra-large seat, firm structure and soft cushioning, modernism and contemporaneity.

BRERA NIGHT COLLECTION

Nella collezione Brera l'eleganza si esprime attraverso un segno orizzontale, pulito e contemporaneo. È così anche per il letto e i comodini, con cui Jean-Marie Massaud porta l'idea di un paesaggio domestico dalla forte connotazione architettonica nella zona notte. Nel letto, la base in cuoio richiama i dettagli couture del divano, così come l'ampia testiera.

In the Brera collection, elegance is expressed through a horizontal, clean and contemporary design. This is also the case for the bed and night tables, allowing Jean-Marie Massaud to apply the idea of a domestic landscape with strong architectural connotations to the bedrooms. The base in hide of the bed is reminiscent of the couture details of the sofa, as is the wide headboard.

KETCH OUTDOOR SUNBED

A completare la collezione Ketch, disegnata da Jean-Marie Massaud e ispirata al mondo della nautica, è il lettino outdoor. Come divani e poltrone, anche il lettino è caratterizzato da una struttura in iroko solida ed essenziale, che sostiene la morbida cuscinatura. Lo schienale reclinabile, reso ancora più confortevole dal cuscino poggiatesta, nasconde un vano funzionale dove riporre teli e accessori.

Completing the Ketch collection, designed by Jean-Marie Massaud and inspired by the nautical world, is the sunbed. Like the sofas and armchairs, the sunbed features a solid and essential iroko frame that supports the soft cushioning. The reclining backrest, made even more comfortable by the headrest cushion, conceals a functional compartment for storing towels and accessories.

WALL SYSTEM

Wall System è un sistema giorno eccezionalmente versatile, un programma d'arredo in costante evoluzione. Per rispondere alle esigenze dell'interior design contemporaneo, Wall System si arricchisce di nuovi elementi. Quanto alle finiture, la novità più rilevante è la possibilità di rivestire gli schienali e il retro degli elementi in tessuto, creando continuità visiva con la boiserie, in una perfetta integrazione tra Wall System e il sistema Architectural.

Wall System is an exceptionally versatile day system, a constantly evolving furnishing concept, enriched with new elements to meet the needs of contemporary interior design. As for finishes, the most relevant innovation is the possibility of covering the back panels and the back of the elements with fabric, creating visual continuity with the boiserie, seamlessly integrating the Wall System with the Architectural system.

TRACE CARPET

Il tappeto Trace, in misto lana e seta di bambù, è prodotto con la tecnica del telaio jacquard. Dall'alternanza tra il bouclé della base e vello pettinato nasce il particolare disegno, disponibile in due colori.

The Trace carpet, made from a blend of wool and bamboo silk, is produced using Jacquard weaving. The distinctive pattern, available in two colors, comes from the alternation of the loop boucle of the base and the combed fleece.

NEW INDOOR FABRICS

Poliform invita a interpretare il rivestimento come possibilità estetica e veicolo di sensazioni visive e tattili. Per gusto, cromie e matericità, la collezione 2024 si ispira al mondo della moda. Ai tessuti bouclé d'ispirazione haute couture si affiancano tessuti morbidi e piacevoli al tatto, con vello pettinato o dall'effetto teddy, di grande impatto visivo. Anche le pelli, nelle due versioni scamosciata e pieno fiore, sono equiparabili per look, mano e performance alle pelli abitualmente destinate al mondo moda. Sempre coerente ai prodotti presentati, la ricerca sulle finiture si conferma dunque centrale, in linea con un'idea di lifestyle che fa della qualità dell'esperienza, anche tattile, il suo punto di forza.

Poliform invites to interpret upholstery as an aesthetic possibility and a vehicle for visual and tactile sensations. In terms of style, colour palette and textures, the 2024 collection draws inspiration from the world of fashion. Visually stunning haute couture-inspired boucle fabrics coexist with soft fabrics, combed or teddy pile, that are pleasant to the touch. Even the suede and full-grain leathers are comparable in look, workmanship and performance to the leathers usually reserved for the fashion world. Consistently with all the products on offer, the research on finishes remains central, in line with a lifestyle concept that puts quality of experience, including tactile experience, front and center.
