CODE DAY SYSTEM  
DIGITAL CATALOGUE

Code è un sistema trasversale che offre una libertà di progettazione senza precedenti. Pensato per il living contemporaneo si estende anche alla zona notte, dove boiserie, contenitori sospesi e mensole sono reinterpretati come elementi a sé o in combinazione ad armadi e cabine armadio. A completare il sistema, una collezione di madie da configurare liberamente – scegliendo tra vani a giorno, vetrine, cassetti, ante battenti o a ribalta. La versatilità del sistema si esprime anche attraverso la varietà di finiture, da personalizzare fino al singolo componente.

Code is a versatile system that offers unprecedented freedom of design. Conceived for the contemporary living room, it also extends to the night area, where boiserie, suspended containers, and shelves are reinterpreted as standalone elements or in combination with wardrobes and walk-in closets. To complete the system, a collection of sideboards to be freely configured – choosing between open compartments, showcases, drawers, hinged or flap doors. The versatility of the system is also expressed through the variety of finishes, to customize down to the individual component.

## CODE DAY SYSTEM

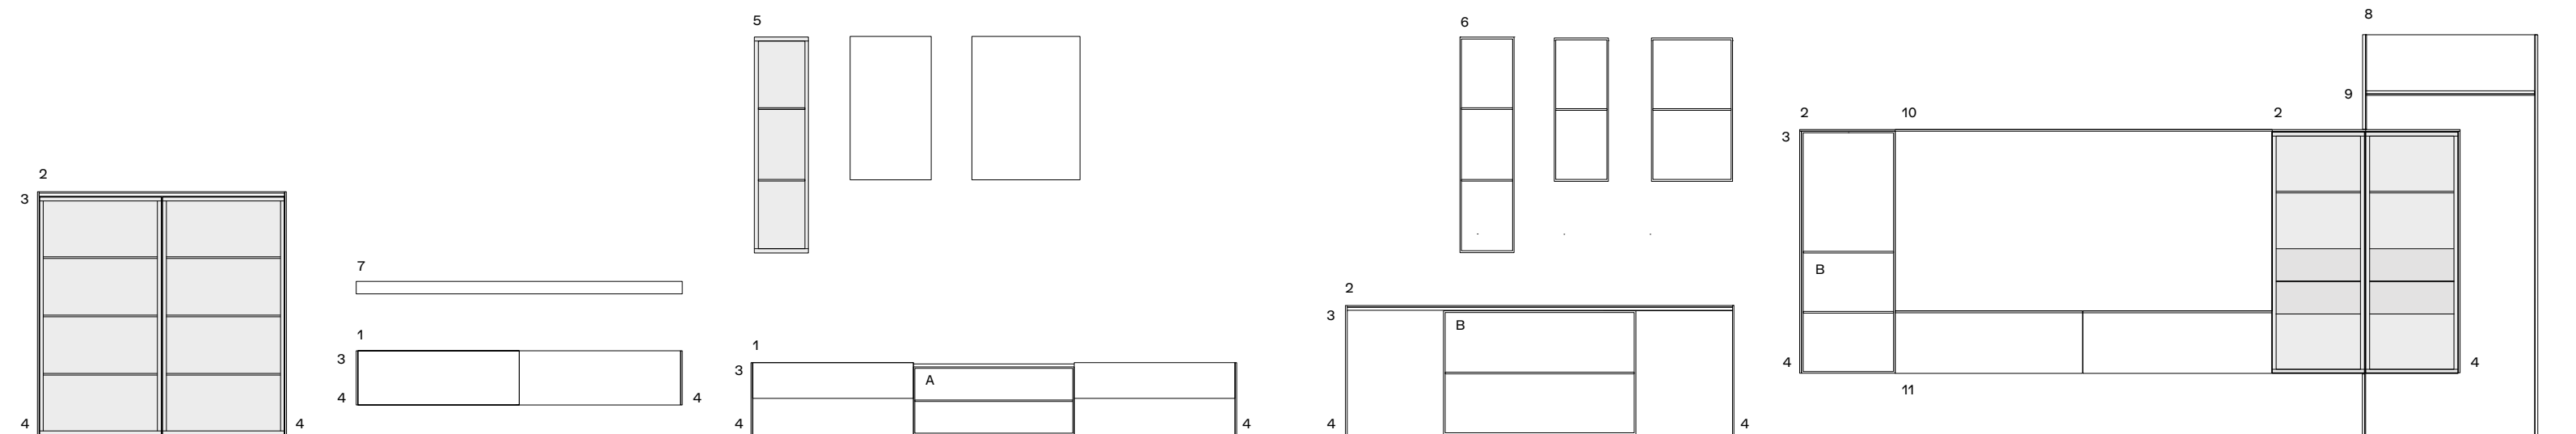

Design R&D Poliform

### Boiserie

Si possono creare composizioni con pannelli boiserie fino ad altezza massima di mm 2910. Si possono accostare pannelli boiserie di diverse finiture.

Tutti i lati a vista delle boiserie devono essere completi di profilo verticale di chiusura. Per boiserie con altezza inferiore o uguale a mm 1950 è obbligatorio il profilo orizzontale superiore di chiusura.

I contenitori e le mensole possono essere posizionati sia alle altezze indicate nello schema che alle altezze richieste.

### Wall panelling

Compositions with wall panelling up to a maximum height of 114 1/2" are feasible. It is possible to combine wall panels in different finishes.

All the visible sides of the wall panelling must be provided with vertical closing profile. For wall panelling with height less than or equal to 76 3/4" the horizontal closing profile is obligatory.

Storage units and shelves can be positioned both at the heights in the scheme and at requested heights.

### Boiserie sovrapposte

Si possono creare composizioni con pannelli boiserie sovrapposti. Si possono accostare, ma non sovrapporre pannelli boiserie di diverse finiture.

Il pannello che parte da terra avrà la dimensione di riferimento presente nello schema, il pannello sovrapposto avrà la dimensione per differenza con l'altezza totale.

I contenitori e le mensole non possono essere posizionati in corrispondenza alla sovrapposizione dei pannelli boiserie.

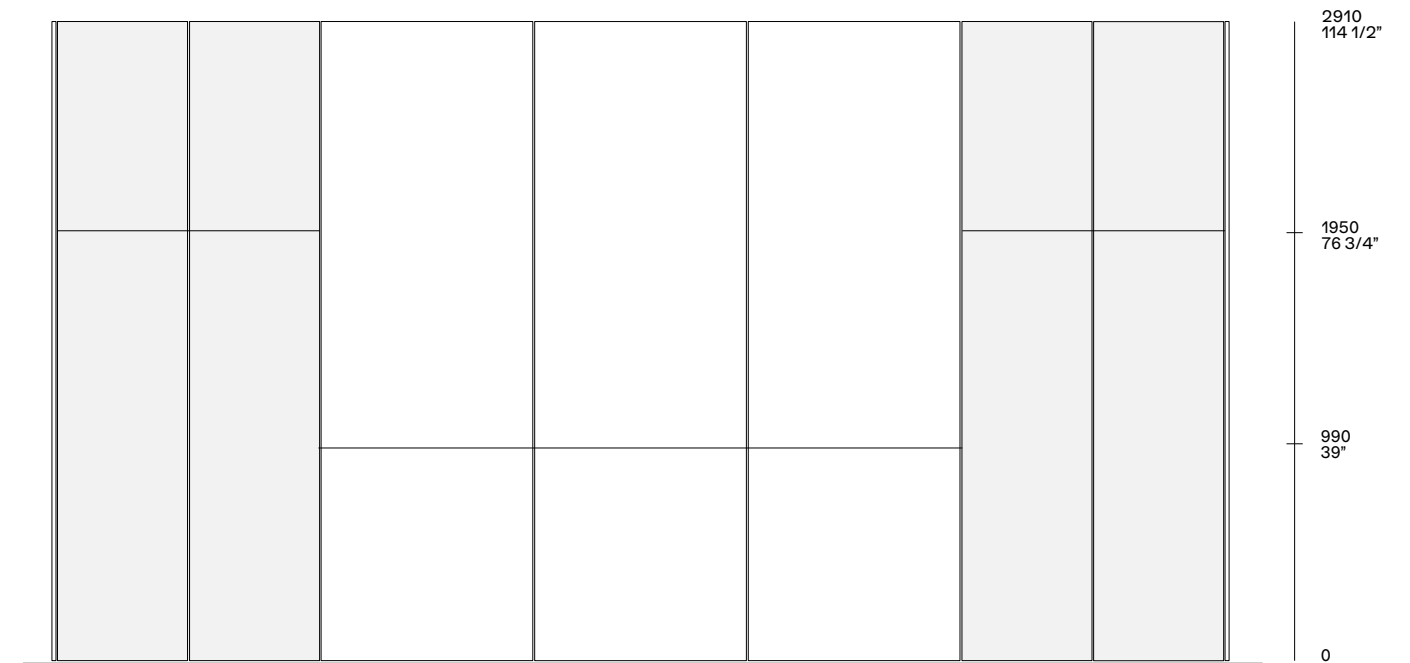

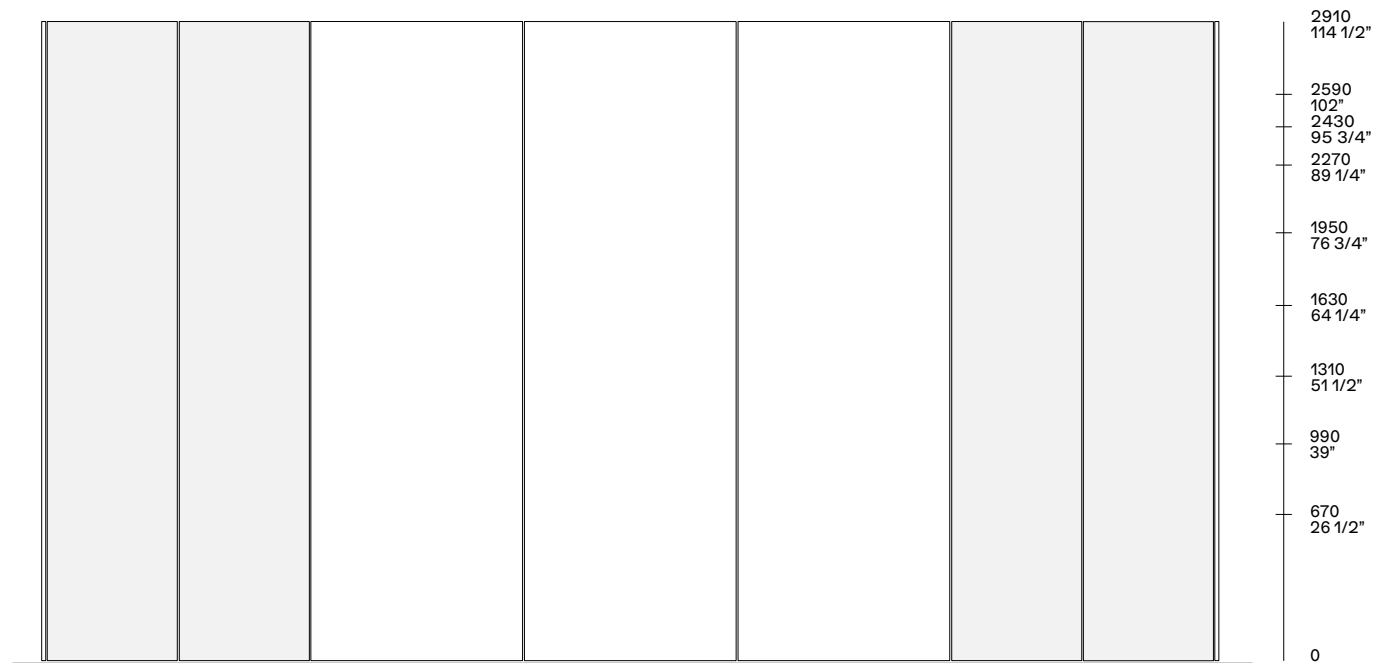

### Superimposed wall panelling

Compositions with superimposed wall panelling are feasible.

Wall panels in different finishes can be put near each other but cannot be superimposed.

The floorstanding panel must be in the dimension indicated in the scheme, the superimposed panel will have the dimension by the difference with the total height.

Storage units and shelves cannot be positioned at the joint of two panels.
